Work Experience

Freelance / Malaysian E-commerce Brand

December 2023-Feb 2024

- Developed the backend for an e-commerce website, utilizing FastAPI and MySQL to ensure efficient data handling and secure transactions.
- Implemented best practices for code quality and application performance, contributing to a robust online shopping platform.

Freelance / Pakistani Company Profile

Jan 2024-Jan 2024

- Designed and developed a front-end landing page for a company profile, ensuring a responsive and visually appealing user interface.
- Utilized HTML, CSS, and JavaScript frameworks to create an engaging user experience that effectively showcased the company's services and values.
